# Introduction to Literary Study

Concepts, methods, model examples and structured explanation

## LEARNING OBJECTIVES

- Explain the central ideas and vocabulary of introduction to literary study.
- Apply introduction to literary study to a clear academic, technical or real-life example.
- Use a structured method to analyse, solve or evaluate a related problem.

## CORE EXPLANATION

Introduction to Literary Study is an important part of ENGLISH LITERATURE. A strong learner should first identify the main concept, define the relevant terms precisely, then connect the idea to evidence, a model, a calculation, a system, or a practical situation. The aim is not only to memorize a definition but to understand how the concept works, what assumptions it uses, and how a result can be checked.

### KEY POINTS

- Identify the purpose and structure of introduction to literary study.
- Separate definitions, procedures, evidence and conclusions.
- Use examples that directly match the concept rather than unrelated facts.
- Check accuracy, units, assumptions, sources or logical consistency where relevant.

## MODEL APPLICATION

Model task: explain introduction to literary study in a short response. Start with a precise definition, identify the key mechanism or method, apply it to one concrete example, and finish by stating what the example demonstrates.

## STUDY ROUTINE

Step 1: identify the question. Step 2: choose the correct concept or method. Step 3: show reasoning clearly. Step 4: check the result. Step 5: explain the meaning of the answer.

# Introduction to Literary Study - Practice

## COMMON ERRORS AND BETTER METHODS

**Common error: Using a vague definition.**

Better: State the exact meaning and the conditions in which it applies.

**Common error: Giving an example without explanation.**

Better: Explain why the example demonstrates the concept.

**Common error: Skipping the checking stage.**

Better: Verify logic, calculations, evidence or assumptions before concluding.

## GUIDED PRACTICE

1. Define introduction to literary study in your own words.
2. List three key ideas connected to introduction to literary study.
3. Give one accurate example and explain why it is relevant.
4. Identify one common error or misconception.
5. Explain one method for checking an answer or conclusion.
6. Compare two related ideas or approaches.
7. Write a short application to school, work, society, science or technology.
8. Write one exam-style question and outline a strong answer.

## MASTERY CHALLENGE

Write a 120-180 word explanation of introduction to literary study. Include a definition, one example, one limitation or checking step, and a concluding sentence.

# Reading Fiction Closely

Concepts, methods, model examples and structured explanation

## LEARNING OBJECTIVES

- Explain the central ideas and vocabulary of reading fiction closely.
- Apply reading fiction closely to a clear academic, technical or real-life example.
- Use a structured method to analyse, solve or evaluate a related problem.

Tone, Mood and Diction is an important part of ENGLISH LITERATURE. A strong learner should first identify the main concept, define the relevant terms precisely, then connect the idea to evidence, a model, a calculation, a system, or a practical situation. The aim is not only to memorize a definition but to understand how the concept works, what assumptions it uses, and how a result can be checked.

### KEY POINTS

- Identify the purpose and structure of tone, mood and diction.
- Separate definitions, procedures, evidence and conclusions.
- Use examples that directly match the concept rather than unrelated facts.
- Check accuracy, units, assumptions, sources or logical consistency where relevant.

## MODEL APPLICATION

Model task: explain tone, mood and diction in a short response. Start with a precise definition, identify the key mechanism or method, apply it to one concrete example, and finish by stating what the example demonstrates.

## STUDY ROUTINE

Step 1: identify the question. Step 2: choose the correct concept or method. Step 3: show reasoning clearly. Step 4: check the result. Step 5: explain the meaning of the answer.

# Tone, Mood and Diction - Practice

## COMMON ERRORS AND BETTER METHODS

**Common error: Using a vague definition.**

Better: State the exact meaning and the conditions in which it applies.

**Common error: Giving an example without explanation.**

Better: Explain why the example demonstrates the concept.

**Common error: Skipping the checking stage.**

Better: Verify logic, calculations, evidence or assumptions before concluding.

## GUIDED PRACTICE

1. Define tone, mood and diction in your own words.
2. List three key ideas connected to tone, mood and diction.
3. Give one accurate example and explain why it is relevant.
4. Identify one common error or misconception.
5. Explain one method for checking an answer or conclusion.
6. Compare two related ideas or approaches.
7. Write a short application to school, work, society, science or technology.
8. Write one exam-style question and outline a strong answer.

## MASTERY CHALLENGE

Write a 120-180 word explanation of tone, mood and diction. Include a definition, one example, one limitation or checking step, and a concluding sentence.

# Figurative Language

Concepts, methods, model examples and structured explanation

## LEARNING OBJECTIVES

- Explain the central ideas and vocabulary of figurative language.
- Apply figurative language to a clear academic, technical or real-life example.
- Use a structured method to analyse, solve or evaluate a related problem.

## CORE EXPLANATION

7. Write a short application to school, work, society, science or technology.
8. Write one exam-style question and outline a strong answer.

## MASTERY CHALLENGE

Write a 120-180 word explanation of conflict, power and society. Include a definition, one example, one limitation or checking step, and a concluding sentence.

# Gender and Representation

Concepts, methods, model examples and structured explanation

## LEARNING OBJECTIVES

- Explain the central ideas and vocabulary of gender and representation.
- Apply gender and representation to a clear academic, technical or real-life example.
- Use a structured method to analyse, solve or evaluate a related problem.

## CORE EXPLANATION

Gender and Representation is an important part of ENGLISH LITERATURE. A strong learner should first identify the main concept, define the relevant terms precisely, then connect the idea to evidence, a model, a calculation, a system, or a practical situation. The aim is not only to memorize a definition but to understand how the concept works, what assumptions it uses, and how a result can be checked.

### KEY POINTS

- Identify the purpose and structure of gender and representation.
- Separate definitions, procedures, evidence and conclusions.
- Use examples that directly match the concept rather than unrelated facts.
- Check accuracy, units, assumptions, sources or logical consistency where relevant.

## MODEL APPLICATION

Model task: explain gender and representation in a short response. Start with a precise definition, identify the key mechanism or method, apply it to one concrete example, and finish by stating what the example demonstrates.

## STUDY ROUTINE

Step 1: identify the question. Step 2: choose the correct concept or method. Step 3: show reasoning clearly. Step 4: check the result. Step 5: explain the meaning of the answer.

# Gender and Representation - Practice

## COMMON ERRORS AND BETTER METHODS

**Common error: Using a vague definition.**

Better: State the exact meaning and the conditions in which it applies.

**Common error: Giving an example without explanation.**

Better: Explain why the example demonstrates the concept.

**Common error: Skipping the checking stage.**

Better: Verify logic, calculations, evidence or assumptions before concluding.

## GUIDED PRACTICE

1. Define gender and representation in your own words.
2. List three key ideas connected to gender and representation.
3. Give one accurate example and explain why it is relevant.
4. Identify one common error or misconception.
5. Explain one method for checking an answer or conclusion.
6. Compare two related ideas or approaches.
7. Write a short application to school, work, society, science or technology.
8. Write one exam-style question and outline a strong answer.

## MASTERY CHALLENGE

Write a 120-180 word explanation of gender and representation. Include a definition, one example, one limitation or checking step, and a concluding sentence.

# Unseen Text Analysis

Concepts, methods, model examples and structured explanation

## LEARNING OBJECTIVES

- Explain the central ideas and vocabulary of unseen text analysis.
- Apply unseen text analysis to a clear academic, technical or real-life example.
- Use a structured method to analyse, solve or evaluate a related problem.

## CORE EXPLANATION

Unseen Text Analysis is an important part of ENGLISH LITERATURE. A strong learner should first identify the main concept, define the relevant terms precisely, then connect the idea to evidence, a model, a calculation, a system, or a practical situation. The aim is not only to memorize a definition but to understand how the concept works, what assumptions it uses, and how a result can be checked.

## MASTERY CHALLENGE

Write a 120-180 word explanation of unseen text analysis. Include a definition, one example, one limitation or checking step, and a concluding sentence.

# Using Evidence and Quotations

Concepts, methods, model examples and structured explanation

## LEARNING OBJECTIVES

- Explain the central ideas and vocabulary of using evidence and quotations.
- Apply using evidence and quotations to a clear academic, technical or real-life example.
- Use a structured method to analyse, solve or evaluate a related problem.

## CORE EXPLANATION

Using Evidence and Quotations is an important part of ENGLISH LITERATURE. A strong learner should first identify the main concept, define the relevant terms precisely, then connect the idea to evidence, a model, a calculation, a system, or a practical situation. The aim is not only to memorize a definition but to understand how the concept works, what assumptions it uses, and how a result can be checked.

# Answer Guidance 1

## HOW TO CHECK YOUR WORK

- Definition questions: use precise subject vocabulary and avoid circular definitions.
- Explanation questions: show cause-and-effect or the sequence of reasoning.
- Comparison questions: use the same criteria for both sides and state similarities and differences.
- Application questions: use details from the scenario, data, system or example.
- Calculation questions: show formulas, substitutions, units and a reasonableness check.
- Evaluation questions: present relevant evidence, limitations and a supported conclusion.
- Technical questions: distinguish components, processes, inputs, outputs and controls.
- Essay questions: organize the answer with a direct introduction, developed paragraphs and a concise conclusion.

# ENGLISH LITERATURE Reference

## QUICK REFERENCE

- Define key terms before applying them.
- Use symbols, notation and units consistently where relevant.
- Distinguish facts, assumptions, examples and conclusions.
- Use diagrams, tables, formulas or structured steps when they improve clarity.
- Check calculations and technical procedures independently where possible.
- For written analysis, connect each paragraph to the question.
- For practical work, document inputs, process, output, tests and corrections.
- Review weak lessons using spaced repetition and mixed practice.

# Final Revision Checklist

## BEFORE THE FINAL EXAMINATION

- ☐ I can define the core concepts accurately.
- ☐ I can explain methods and processes step by step.
- ☐ I can apply the subject to unfamiliar examples.
- ☐ I can identify common errors and correct them.
- ☐ I can compare related ideas using clear criteria.
- ☐ I can complete mixed practice without notes.
- ☐ I can check calculations, evidence, logic or technical results.
- ☐ I can write a concise, direct final conclusion.
